Cloud Phone is the modern alternative to old-fashioned phone lines and fixed phone systems.

Cloud Phone lets you use your business phone line on your mobile. So calls can follow you - no matter if you're working on site, travelling between jobs, working from home, or at your desk.

Cloud Phone includes professional business features - like Voicemail to Email and Time of Day Routing – so you never miss an important call.

Cloud Phone puts you in control. Our easy-to-use online portal lets you manage your features, and your service, without needing to call IT.

Smart, simple and NBN-ready - Cloud Phone is the future of small business communications.
